# Current scenario

## Current Penetration Rates

### Poor penetration

MSME health insurance penetration stands at only 31% compared to 85% in large corporates. Micro enterprises show 24% penetration versus 64% in medium enterprises

What are other market inefficiencies?

## Blue Collar Coverage Gap

### Lack of affordable options

(Onsurity offers plans starting Rs. 145/month = Rs. 1,740/year for basic coverage)

What is the problem  
being solved? Ask AI

## ***Problem***

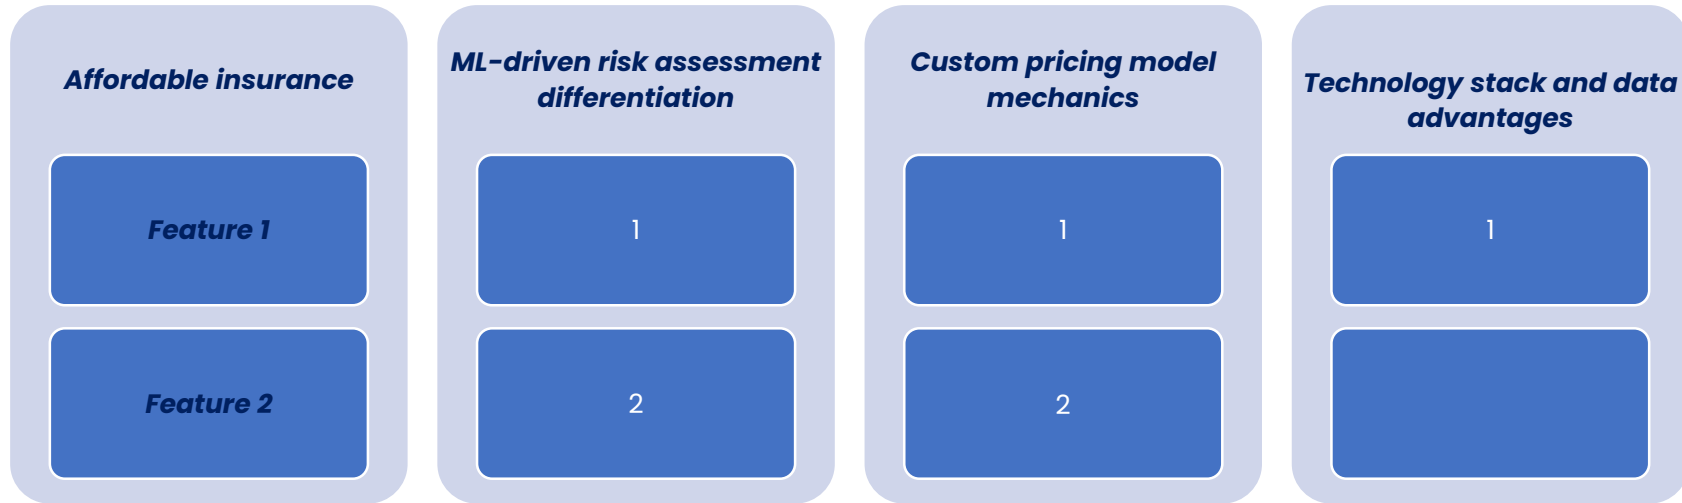

***Current state → Gap → Desired state (all quantified)***

- Healthcare cost inflation impact on SMEs
- Blue collar worker insurance gap statistics
- Current market inefficiencies

# Solution

What is the solution?  
Is there validation of  
MSME preferences

## Group insurance at retail prices

MSMEs prefer basic coverage focusing on personal accident and critical illness, with emphasis on premium reduction and employee-only coverage.

# Tech

## ***Architecture***

### **Technology Validation**

- What datasets train the ML models and how representative are they of the target SME population?
- How does the platform handle adverse selection and moral hazard?
- What fraud detection mechanisms are implemented?

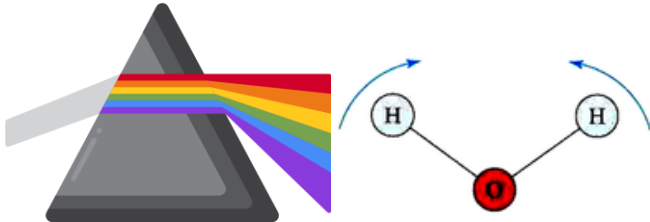

## ***Workflows***

### ***Impact statement of solution***

# Market- Size and Segments

## ***Segments in the market***

- Large companies
- Medium enterprises
- Small enterprises
- Micro enterprises

## ***Learning***

### ***.....the biggest pain.***

- Inefficient quality control
- Regulatory & Safety Concerns
- Market Concerns

• India's health insurance market: USD 145 billion (2024) growing at 8.7% CAGR to USD 308 billion by 2033

• Group health insurance expected to grow 13-16% CAGR (FY24-FY28) with SME focus driving growth

# ***Value Proposition***

# Business Model

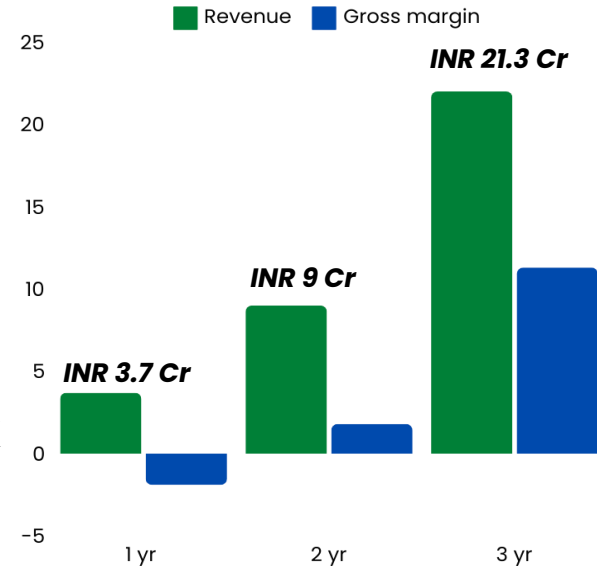

## Revenue Model

Unit economics and gross margins

## Financial Sustainability

- How does the 45% margin compare to industry loss ratios and expense ratios?
- What assumptions underpin the Rs. 7,000 premium for Rs. 5 lakh coverage?
- How will claims experience evolve as the risk pool matures?

## Projections

# GTM

## ***Market entry***

### **Market Entry Strategy**

What distribution channels will reach dispersed SME market effectively?

How will customer education and onboarding be handled for low-awareness segments?

What partnerships exist with healthcare providers in Tier 2/3 cities?

## ***Regulatory readiness***

### **Regulatory Preparedness**

How will the startup navigate current IRDAI enforcement trends?

What compliance infrastructure is in place for claims processing and grievance handling?

How are regulatory capital requirements being addressed?

# *Competition landscape*

## **Incumbent Analysis**

- Traditional players: Star Health, Niva Bupa, Care Health face regulatory scrutiny
- Digital-first competitors: Onsurity, Pazcare targeting similar segments
- Large corporate advantages in distribution and brand trust

## **Unfair advantage**

- ML model superiority evidence
- Underwriter partnership strength
- Regulatory compliance readiness

**Over 25 years of collective experience in Pharmaceuticals , Material and DRUG development in Academia and Industry**
